Stock Plans and Book Sales

STOCK PLAN SALES INFORMATION

(\$750 PER SET, \$50 EACH FOR EXTRA SETS, \$35 FOR POSTAGE/HANDLING)

I have tried to offer stock construction plans for those who are interested, either to build or for study purposes. For those planning to build, I suggest custom services, but if stock plans fit your needs, they are, of course, less expensive. Call or write for information on our custom work, which costs twelve to fifteen percent of construction costs for full residential services (we do work nationally with local associations). The drawing stage of work takes about one year, and building costs run \$150 to \$200 and up per square foot. We also do commercial work and sacred architecture.

BOOK SALES INFORMATION

All books listed on the site are available through us, at any major bookstore or through Amazon.com. You may find older editions of these books through your local interlibrary loan program or used on Amazon.com.
